## Contract Vehicle Features and Benefits

| Features  | Benefits   |
|---|--|
| \$10B program ceiling and five year base period with one five year option period  | Enables long term planning of large scale program requirements                     |
| Contract types include: Fixed Price, Labor Hour, and Time and Material  | Offers flexibility of contract types to mitigate risk                              |
| Directed Task Orders up to \$4M   | Enhanced opportunities for 8(a) firms  |
| No protests on orders under \$10M, except on the grounds that the order increased the scope, period, or maximum value of the GWAC | Minimizes protest risk and supports timely order award for optimal mission support |
| Access to pre-qualified 8(a) small business industry partners   | Enables Federal customers to earn 8(a) small business credit                       |

## About Nationwide IT Services [NIS]

**Our Vision.** Become a trusted partner as a highly qualified, certified 8(a) small disadvantaged business that focuses on delivering cost-effective, innovative solutions for Information Technology (IT) requirements. We remain committed to doing what is right for our customers, for our employees, and for our Nation, today and tomorrow.

**Our Values.** NIS has been building a culture of professionalism, integrity, ambition, and takes pride in helping our clients solve their toughest challenges. We empower our employees to be a trusted partner to our clients through integrity, accountability, dependability, and positive energy.

**Our Corporate Experience.** NIS currently performs on 30 prime contracts across 12 Federal Agencies in 16 states across the USA including: New Hampshire, Massachusetts, Connecticut, New Jersey, Pennsylvania, Maryland, Virginia, Ohio, North Carolina, Georgia, Florida, Oklahoma, Texas, Colorado, California and the District of Columbia in all functional categories that are relevant to both Constellation I and II.

**Our Client Services.** NIS is more than IT Company! NIS leverages IT to deliver efficiencies while incorporating Human Factors to improve effectiveness. NIS blends People, Processes and Technology to address the technology gaps. We gather the resources, research, expertise, and industry experience to deliver focused results. Our solution architects innovate and turn clients' challenges to opportunities.

**Our Capabilities.** NIS is partnered with market leading technology partners that include: Microsoft, Google, Amazon Web Services, Citrix, CISCO, Oracle, Lenovo, Dell, Sonic Wall and many more. But we are vendor neutral partner that focuses on delivering best solutions to meet our customer's requirements. We connect clients to the best technology solution with complemented by processes and people for lasting results. The NIS' true differentiation is incorporating People, Processes and Technology.

**Our Results.** NIS delivers results that are evident by our Exceptional CPAR Ratings and 98% Open Ratings Report as reported by the independent rating agency Dun & Brad Street for the last five consecutive years.

*"We are what we repeatedly do.  
Excellence then, is not an act, but a habit."*

-Aristotle

## Services Provided in Functional Areas

### Functional Area 1: NAICS 541511

#### Service-Oriented Development Services

- Requirements Management
- Applications Development: Agile, Scrum, DevOps
- Software Development Lifecycle Support
- Custom Dashboards and Data Interfaces
- Web Development and Portal Development
- Mobile Application Development
- Specialized Programming Languages
- Database Design and Administration

NIS provides Service-Oriented Development Services to the United States Geological Survey. We design, develop, test, and assist during app deployment, for eleven different applications including web apps, real-time data driven apps, and mobile apps.
